MEMORANDUM

Date: June 30 2011
To: West Don Lands Construction Liaison Committee
Re: West Don Lands Construction Update

Below please find updates on the demolition work scheduled for the site north of 70 Mill Street and the Stormwater Management Facility project at 480 Lake Shore Boulevard.

1. Demolition of the buildings behind 70 Mill

Infrastructure Ontario has provided an updated schedule for the demolition work behind 70 Mill Street. The work is now scheduled to commence by the end of next week (July 8th) and is scheduled for completion August 31, 2011.

2. West Don Lands Stormwater Management Project

Waterfront Toronto's Stormwater management constructor will be conducting evening work, between 6:00 p.m. and 11:00 p.m., for the weeks of July 3rd and July 10th to facilitate time-critical work on the facility's main shaft.

The site is located at 480 Lake Shore Boulevard, south of the rail lines. The contractor has been instructed to ensure they adhere to the City's by-law requirements, and to continue to provide updates on the status of the evening schedule.

Additional updates will be provided as more information becomes available.

Thanks!

Tari
