

SPECIAL QUEENS QUAY CONSTRUCTION NOTICE

TTC Rail Delivery for Rees Intersection / Spadina Loop

TTC crews will deliver and place track at the Rees intersection tonight starting at 8pm. Paid duty officers will be on site to escort the delivery, however, due to the length of the rail, intermittent traffic impacts should be expected. Westbound traffic on Queens Quay will be diverted along Robertson Crescent East to Robertson Crescent West and back to Queens Quay during this period.

Crews will also deliver the final panel of rail for the east side of the Spadina loop entrance and will work to install the rail in this area over a two-night period (June 5/6).

More Information

For more information about the work described in this notice, please email info@waterfrontoronto.ca or contact Diego Sinagoga, TTC Community Liaison Representative at (416) 393.2197 or Diego.Sinagoga@ttc.ca.
