

## **SPECIAL QUEENS QUAY CONSTRUCTION NOTICE**

### **TTC Overnight Rail Work Begins This Week**

TTC crews will begin working on Queens Quay overnight this week to move rail into position for the rebuild of the streetcar corridor.

Crews will mobilize to the rail storage location on Queens Quay East at Freeland Street tonight – April 1. Crews will work overnight to prepare the rail to be moved. On Wednesday, April 2, crews will move the first four strings of rail from the Freeland Street location to the newly poured concrete track bed just west of Lower Simcoe Street for installation. This work will occur overnight into Thursday morning.

Rail will continue to be moved in sections over the next couple of months as the rebuild of the TTC Streetcar corridor continues on Queens Quay.

#### **What to Expect**

Four 60-metre long rails will be pulled by TTC crews overnight with the assistance of Paid Duty Police Officers. Noise should be expected as tracks are moved along the asphalt roadway. The sound of 'back-up alarms' from trucks should also be expected. Other overnight work may include assembly of the track system (welding/grinding, installation of rubber sleeves/boots and the installation of the rail fastening system). Given the length of the rails, after-hours work by TTC crews is required to move the rails into position and to support daytime construction activities.

#### **More Information**

Every effort will be made to provide advance notice of future rail pulls in our Weekly Queens Quay Construction update. You may sign up for the weekly notice by sending an email to [info@waterfrontoronto.ca](mailto:info@waterfrontoronto.ca) or by [subscribing online](#).

For more information about the work described in this notice, please email [info@waterfrontoronto.ca](mailto:info@waterfrontoronto.ca) or contact Diego Sinagoga, TTC Community Liaison Representative at 416-393-2197 or [Diego.Sinagoga@ttc.ca](mailto:Diego.Sinagoga@ttc.ca). For urgent construction issues, contact Robert Pasut - Eastern Construction Community Liaison Officer at [RPasut@easternconstruction.com](mailto:RPasut@easternconstruction.com) or 416-505-3073.
