

## Waterfront Toronto Science Fair!

Join us for an afternoon of interactive science experiments created by the scientists, planners, designers, engineers, technologists, architects and builders behind the Port Lands Flood Protection project.

*Did you know that we're creating a new river in Toronto's Port Lands?*

The team behind this engineering feat are putting on a science fair in collaboration with National Engineering Month and the Design Exchange. Designed for kids of all ages, our mini science fair will include activities about environmental management, bridge, road, park and river building.

**When:** Saturday March 16, 2019 from 1-4 p.m.

**Where:** 234 Bay Street, Design Exchange Headquarters

**Cost:** Free
