Call for Submissions: STAKEHOLDER ADVISORY COMMITTEE

February 20, 2018

Waterfront Toronto is seeking people ages 18-25 to join a Stakeholder Advisory Committee for *Port Lands Flood Protection*. This seven-year project will re-naturalize the mouth of the Don River, create a new river valley through the Port Lands, a new island, and new parks, roads and bridges.

The advisory committee plays an important role in the public consultation process for the project by providing feedback, guidance and advice to the project team (Waterfront Toronto, the City of Toronto, Toronto and Region Conservation, the project designers and consultants) at key points during the design and implementation of the project.

We are seeking two individuals to represent the community at large. We are specifically looking for youth who are involved in outdoor sports and recreation, heritage and culture or community services.

Stakeholder Advisory Committee members must be able to commit to attending four meetings—generally taking place on weekday afternoons, two to three hours in length—over the course of the next twelve months.

To express your interest in volunteering for this committee, please send a short summary (200 words maximum) outlining your interest and relevant background to info@waterfrontoronto.ca by March 2, 2018. Learn more at
