

Public Meeting Notice

REMINDER NOTICE

Help Shape the Future of the Port Lands Wednesday, August 8th

Waterfront Toronto and the City of Toronto are nearing completion of a business and implementation plan for the Port Lands Acceleration Initiative. Public input has played a key role in shaping the plan to date.

A final public meeting is being held to present updated findings and draft recommendations including the business case. The public meeting will include an overview presentation and facilitated roundtable discussions for participants to provide feedback on the findings, recommendations and business case.

A report on the emerging directions for the future of the Port Lands will go to the City of Toronto's Executive Committee in September, and Toronto City Council in October 2012.

Participate Online

The meeting will be webcast live at www.portlandsconsultation.ca and you can participate in an online version of the roundtable discussion until August 17. Visit the website now for more information and to view project information, past meeting material and earlier public discussions on the project.

Final Port Lands Public Meeting
