

Revisions to Class Environmental Assessment Master Plan

Notice of Filing Addendum

Waterfront Toronto / City of Toronto

West Don Lands Class Environmental Assessment Master Plan

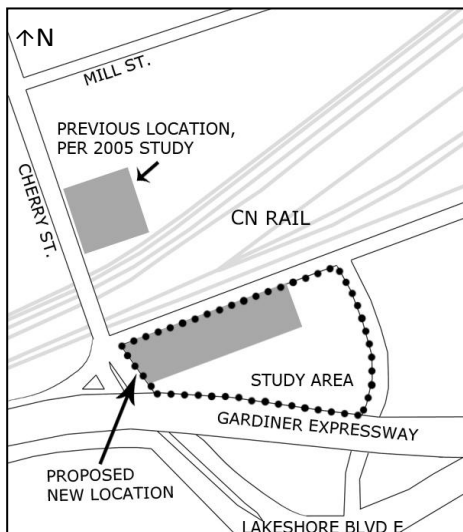

Waterfront Toronto and the City of Toronto completed in 2005 the West Don Lands Class Environmental Assessment Master Plan that identified the location, treatment process, and phasing of the Stormwater Quality Facility.

This Addendum was initiated in an effort to reduce the overall number of stormwater management facilities required in the waterfront area. The Facility is proposed to be relocated to a site that offers the ability to service a larger area of the waterfront.

Revisions to the treatment process and phasing of implementation are also addressed in the Addendum.

The Addendum Document contains a description of the process that led to the selection of the new proposed stormwater management system and a description of the system.

By this Notice, the Addendum Document is being placed on the public record for review in accordance with the requirements of the Municipal Class Environmental Assessment. Please note that only the changes proposed in the Addendum Document are open for review. The Addendum Document is available for review at the following locations and on Waterfront Toronto's website: www.waterfronttoronto.ca.
