# Port Lands and South of Eastern

November 28, 2013 Public Meeting

Toronto and Region for The Living City

- **7:00** Welcome and Introductory Remarks
- 7:10 Overview of Initiatives
- 7:20 Port Lands Planning Framework and Precinct Planning
- **7:40** South of Eastern Strategic Direction
- 7:50 Port Lands and South of Eastern Transportation and Servicing Master Plan EA
- **8:00** Q&A
- 8:15 Opportunity to Complete Workbooks at Open House Stations
- 9:00 Adjourn

### **Purpose of Meeting**

- To introduce the five initiatives and provide background information
- To seek your feedback on:
  - Your vision for areas/sites within the Port Lands for the Port Lands Planning
    Framework
  - The draft objectives developed to inform and guide the development of the Port Lands Planning Framework and Precinct Planning
  - Important considerations for the South of Eastern Strategic Direction
  - Problems and opportunities related to transportation and servicing for the
    Port Lands + South of Eastern Transportation + Servicing Master Plan

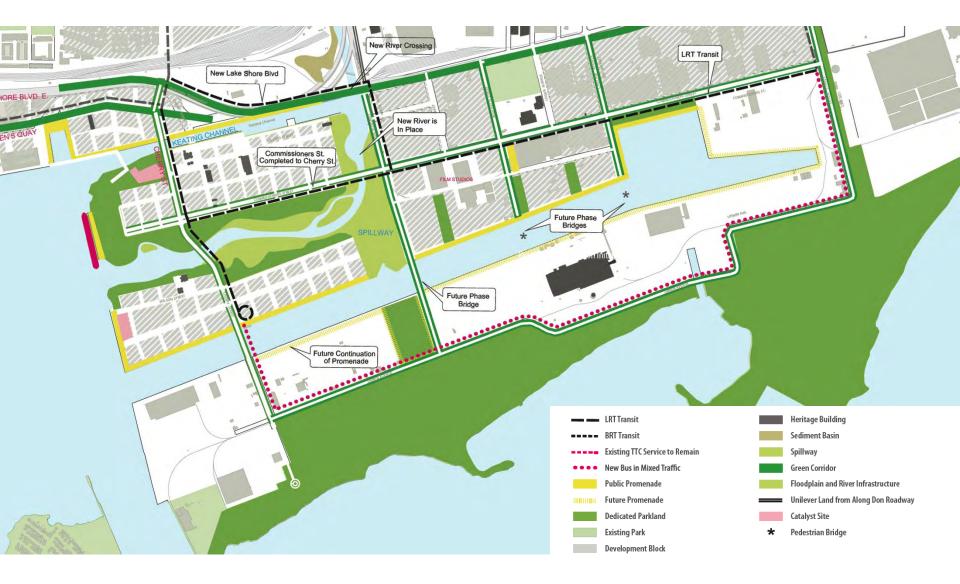

### Port Lands + South of Eastern

### **Planning Context**

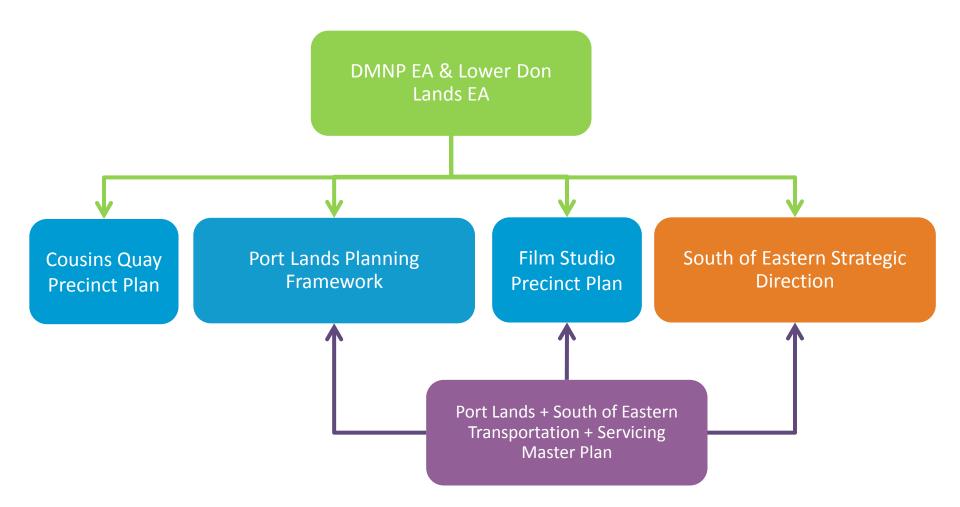

## Port Lands Acceleration Initiative (2012)

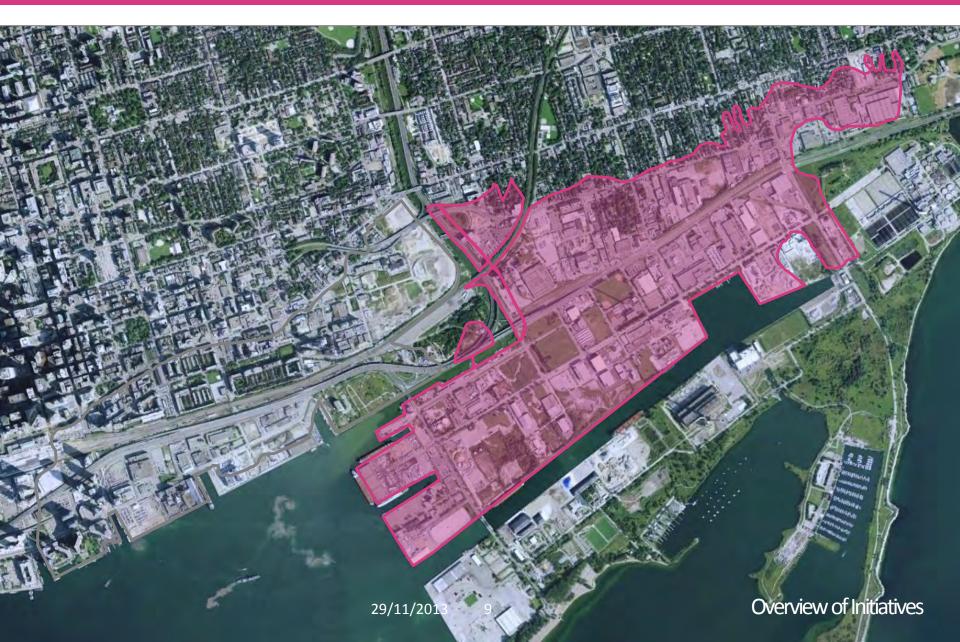

#### 29/11/2013 7

### Linkages Between the Initiatives

## **Flood Protection**

# DMNP EA and Lower Don Lands EA

- DMNP EA establishes:
  - Keating Channel, new river flood plain, and Greenway for flood conveyance
  - Naturalization and city building
  - Adaptive management strategy
  - Proposed phasing strategy for flood protection enabling redevelopment
  - Flood protection requirements
- The LDL EA establishes:
  - Servicing infrastructure necessary to support revitalization and refines it to coincide with the optimized river valley

# Phasing of Development

#### • Phase 1:

- Development can proceed in the Quays
- Phase 2:
  - Development can proceed east of the Don Roadway / Don River and to the north and east of Cousins Quay

#### • Phase 3:

- Development in the River Valley Precincts can proceed
- Phase 4:
  - Naturalization of the south Polson
    Slip dockwall occurs

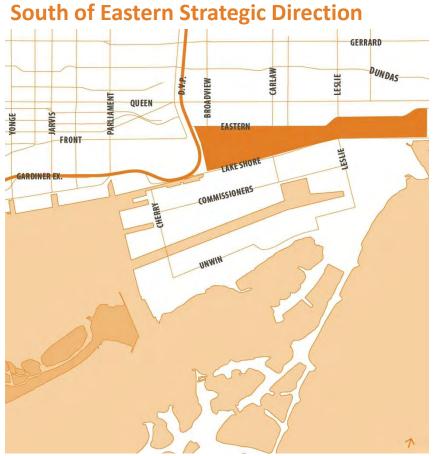

## **Study Areas**

#### vork Port Lands Precinct Planning

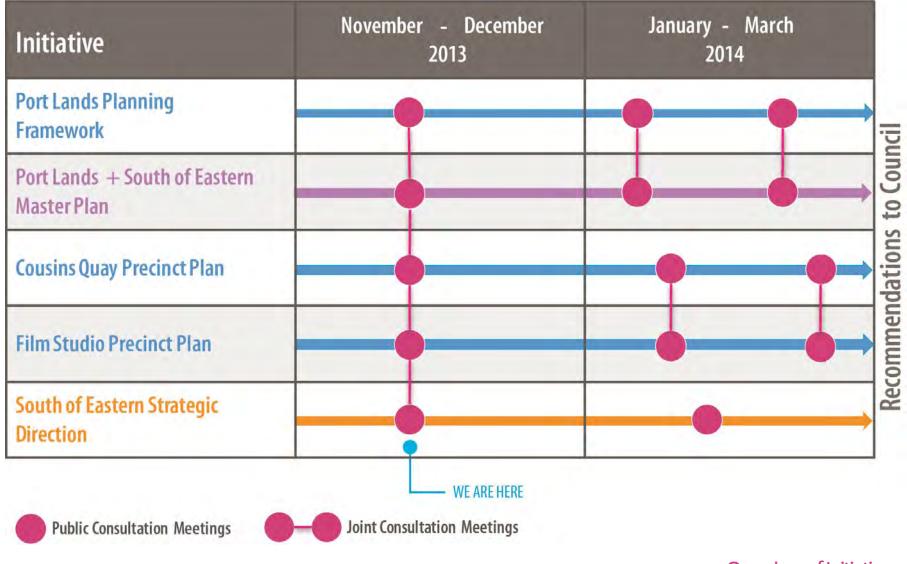

## Study Areas

#### Port Lands + South of Eastern Master Plan

# Timing and Consultation

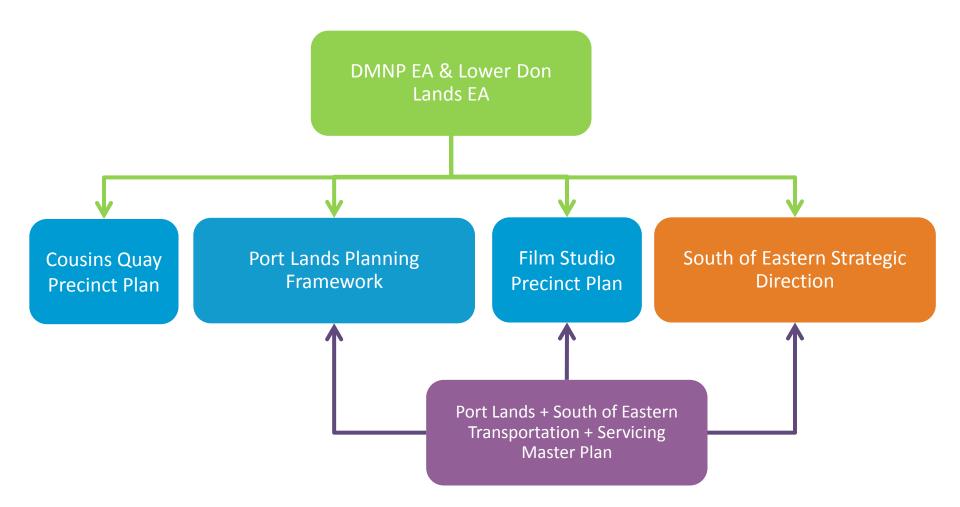

29/11/2013 14

#### Linkages Between the Initiatives

# Port Lands Acceleration Initiative (2012)

#### **Key Precinct Opportunities**

**Green Corridors** 

**Open Space Network** 

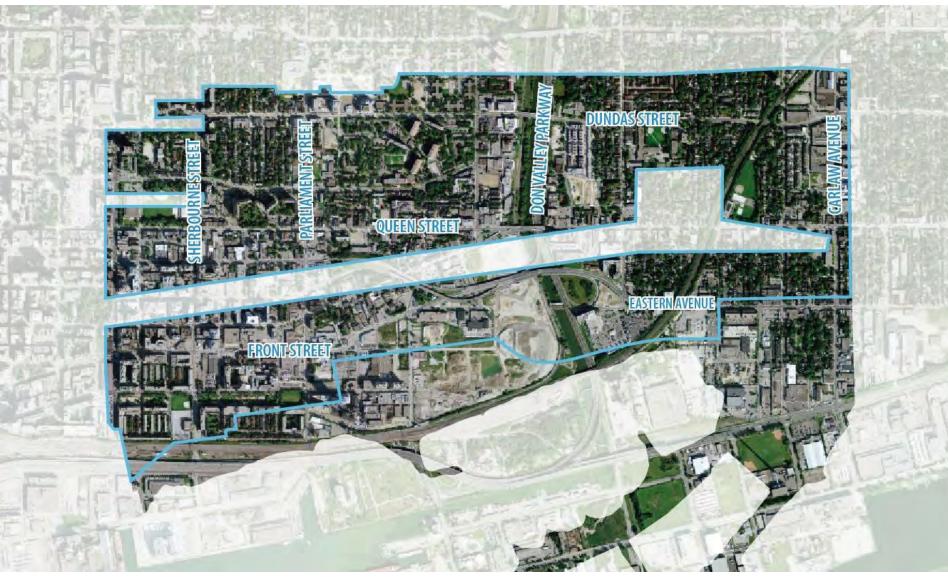

**Major Roads** 

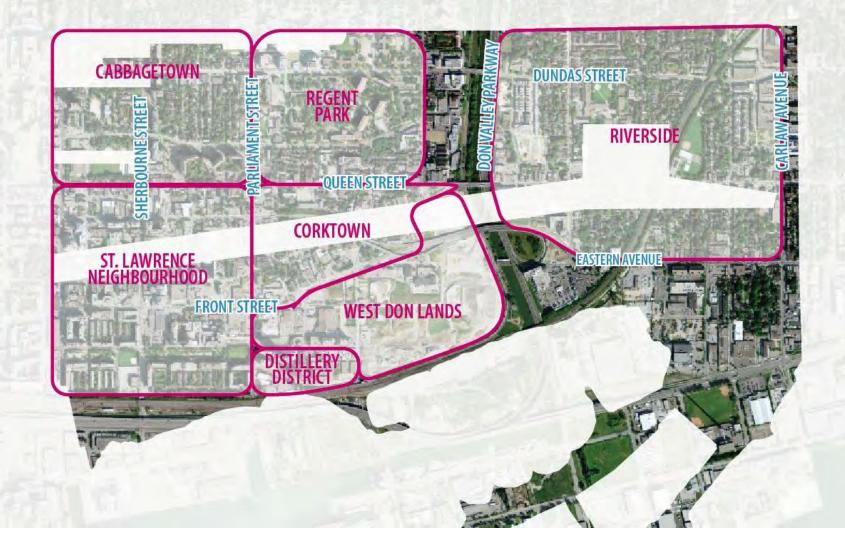

Port Lands Planning Framework

29/11/2013 17

### Port Lands Scale

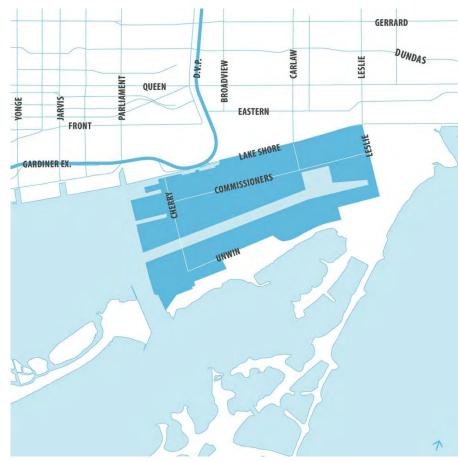

#### **Port Lands Scale**

## Purpose of the Planning Framework

- Integrate the other planning initiatives currently underway
- Update and refresh the vision for the Port Lands
- Provide a comprehensive picture of how the area should redevelop over the long-term and reconcile competing interests
- Provide a flexible/adaptable planning regime
- Ensure sustainable community building
- Ensure that public and private investments contribute to the long-term vision and have lasting value
- Provide the basis for Official Plan amendments
- Resolve Ontario Municipal Board appeals of the Central Waterfront Secondary Plan

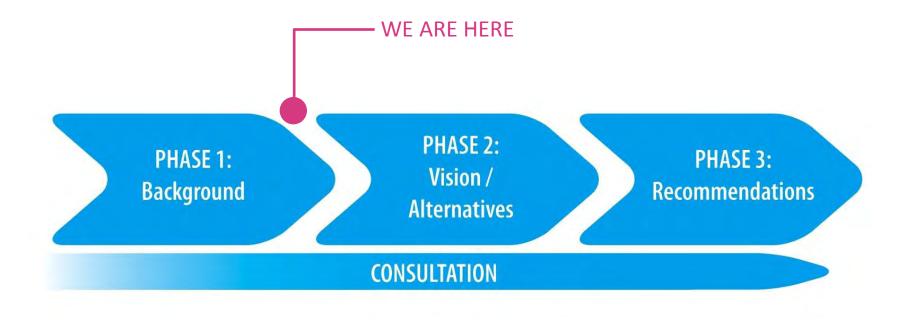

## Elements of the Planning Framework

- An overall vision for the Port Lands
- Development objectives
- A connections plan
- Land use direction
- Identification of local identities/character for the different areas
- A parks and open space plan

- Direction for the conservation of heritage resources
- Urban design principles for new buildings and open spaces
- A community services and facilities strategy
- Implementation and phasing direction

What do you see as the two or three key issues and/or opportunities that need to be addressed in the Port Lands Planning Framework?

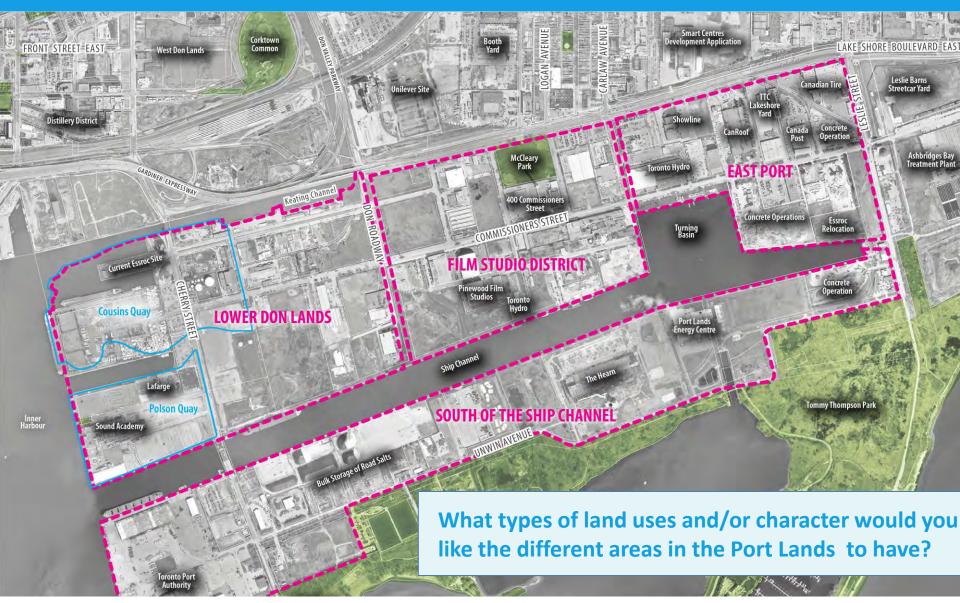

## Port Lands Profile Document

www.portlandsconsultation.ca

#### Sub Areas

### **Draft Development Objectives**

- Creating an interesting and dynamic urban mix
- Connecting the Port Lands to the city
- Leveraging the Port Lands' Assets
- Developing a high quality public realm
- Contributing to the sustainable future of the city
- Providing flexibility and certainty in the plan's implementation

Do the draft Development Objectives reflect how you see the Port Lands developing?

Provide us with your ideas and suggestions on how to improve these objectives.

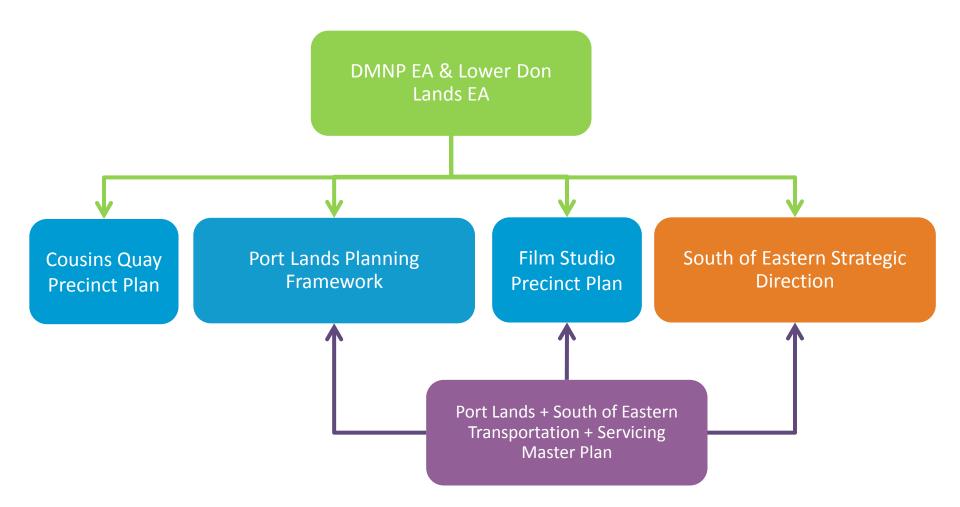

# Port Lands Precinct Planning

29/11/2013

25

### Linkages Between the Initiatives

## **Precinct Planning**

- Precinct plans are prepared prior to enacting zoning by-laws in the Central Waterfront
- They establish the location, scale and character of:
  - Blocks and streets
  - Type and amount of development
  - Building heights
  - Parks and public spaces; and
  - Community facilities
- Detailed urban design guidelines for the look and feel of buildings/open spaces are developed
- Strategies for the provision of affordable housing are also developed

#### Port Lands Precinct Planning

### **Cousins Quay Precinct Plan**

- The Cousins Quay Precinct Plan will provide a vision for a *new, vibrant neighbourhood* characterized by *leading edge sustainability features, good urban form, architectural excellence* and *public access to the waterfront*
- The Precinct Plan will be based on the work completed for the Lower Don Lands EA

### **Cousins Quay Precinct Plan**

- The Precinct Plan will address the following sitespecific urban design and planning issues:
  - A vision for a neighbourhood that takes advantage of three distinct water frontages;
  - An interface of the new neighbourhood with the planned Promontory Park;
  - A concept for a catalytic use at the Essroc Pier site and the reuse of the Essroc Silos;
  - The character of both Cherry and Commissioners Streets, including streetscape and building frontages;
  - Ground floor use guidelines to ensure animation and urban vibrancy; and
  - A conceptual grading plan that supports remediation requirements and a great public realm.

### Film Studio Precinct Plan

#### Port Lands Precinct Planning

### Linkages Between the Initiatives

South of Eastern Strategic Direction

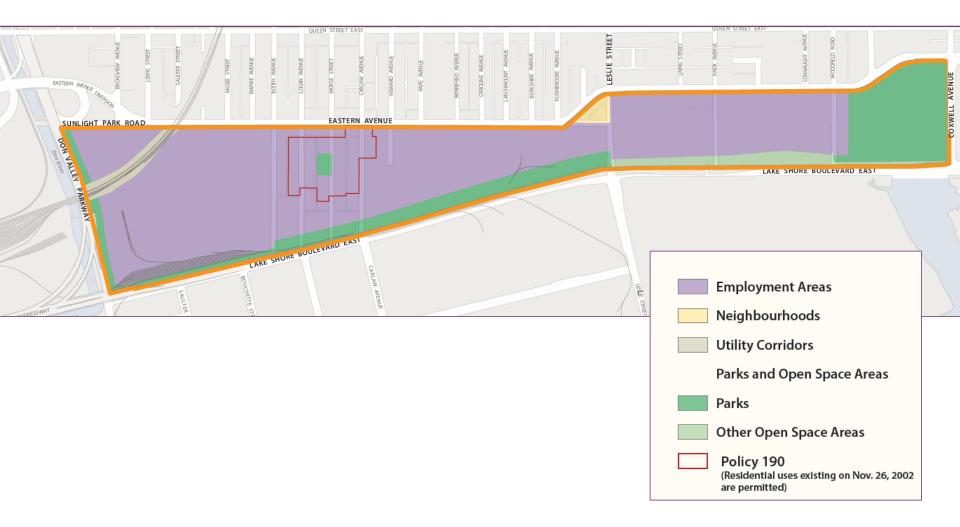

# Purpose of the South of Eastern Strategic Direction

- To set a clear policy context for future investment and development;
- Address January 2012 direction from PGM to consider a planning framework for South of Eastern;
- Reinforce the direction of the Municipal Comprehensive Review; and
- Ensure consistent planning for sitespecific proposals.

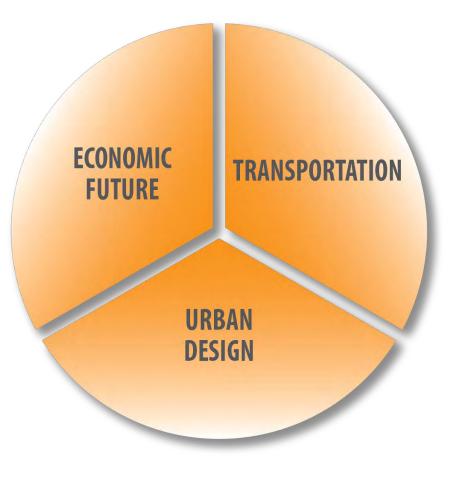

- There was significant community interest as a result of the Smart Centres original development proposal. Through consultation related to the development application and other area plans, we have heard from the community that there is:
  - Support for a wide range of employment uses
  - Support for the ongoing use and expansion of the film industry
  - A desire to create a vibrant employment district
  - A desire for the creation of well paying and stable employment
  - Concerns with traffic related issues on Eastern Avenue
  - The desire for the greening of the community
  - Very limited support for the introduction of residential uses

## Policy Framework

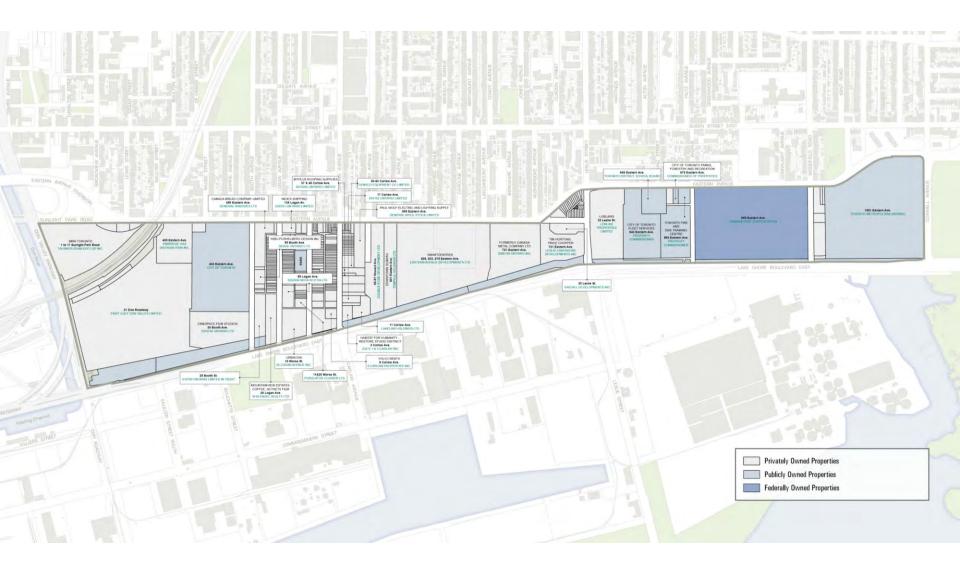

## Purpose of the Study

- Facilitate economic development and employment uses;
- Articulate an urban design vision for an employment district; and
- Identify and resolve key transportation issues to connect employment uses to other parts of the City.

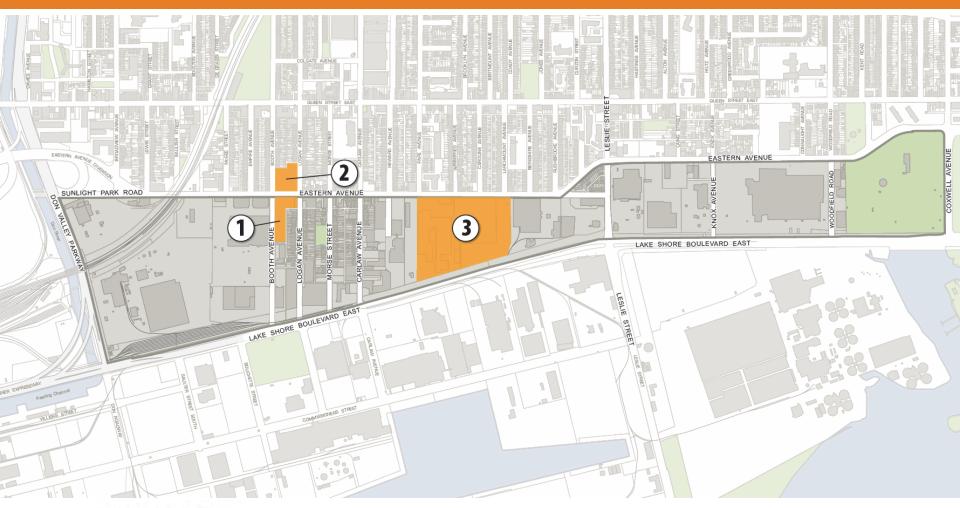

South of Eastern Strategic Direction

## Ownership

### South of Eastern Strategic Direction

# **Active Development Applications**

- 1. 459 Eastern Avenue
- 2. 462 Eastern Avenue
- 3. 629, 633 & 675 Eastern Avenue

### South of Eastern Strategic Direction

The Urban Design study will result in:

- A public realm plan that includes a network of streets and open spaces
- Built form recommendations (height, massing, location of buildings on sites), and
- Recommendations regarding heritage resources including how new development should be organized in proximity to a heritage building.

- The study is just getting started
- The City has hired consultants to do the background Economic and Urban Design study
- We are looking for volunteers for the local Working Group
- Community consultation early 2014

Are there specific improvements that you would like to see in the South of Eastern area? Are there areas that you think need special attention?

What types of businesses and economic activity would you like the City to promote in the South of Eastern area?

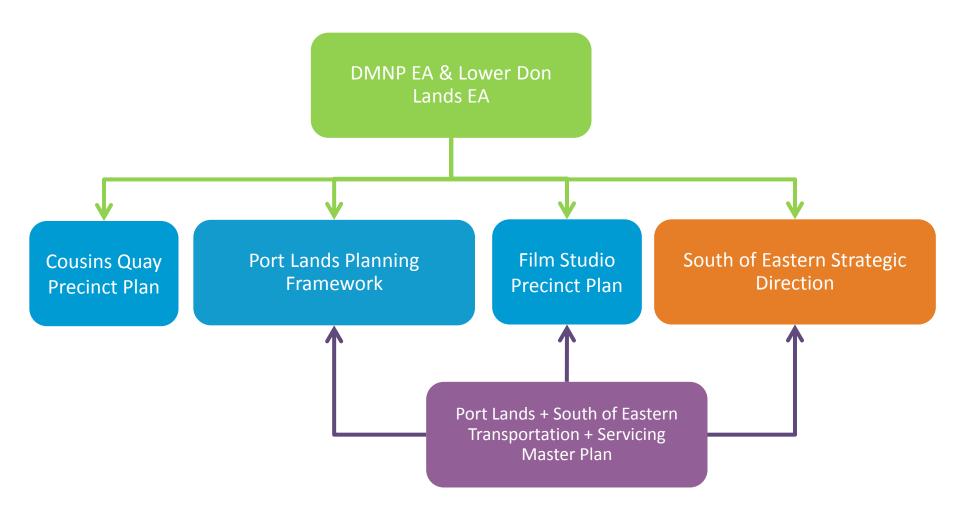

# Port Lands Area Infrastructure Master Plan EA

29/11/2013

## Linkages Between the Initiatives

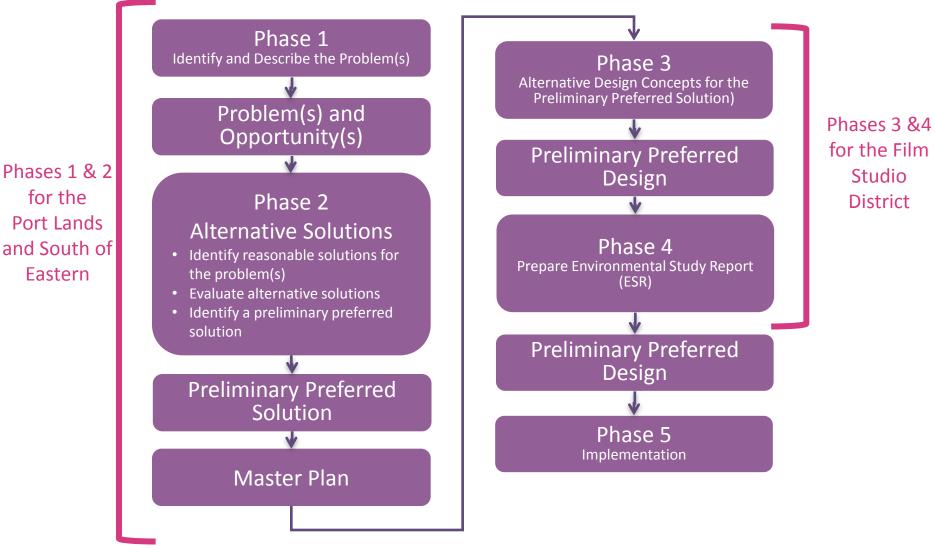

### Purpose

- The Master Plan will tie together planning for South of Eastern and the Port Lands from a transportation and servicing perspective
- The Master Plan will identify the major street and transit networks, including:
  - Planned function and character of Lake Shore Boulevard
  - Broadview extension
  - Transit on Commissioners Street and resolving the hydro transmission towers
  - Potential connections across the Ship Channel
- The Master Plan will identify the servicing infrastructure to supplement previous EAs and support development
- Phasing considerations given long-term buildout of portions of the Port Lands

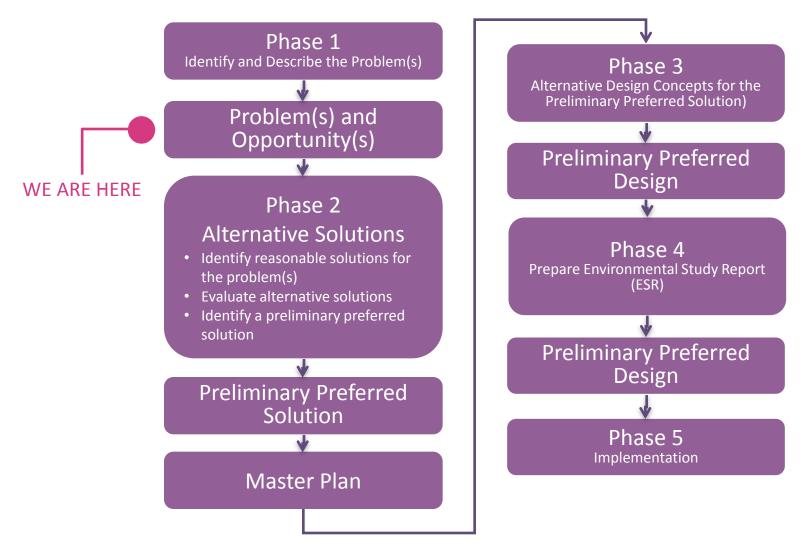

## Municipal Class EA Process

29/11/2013 45

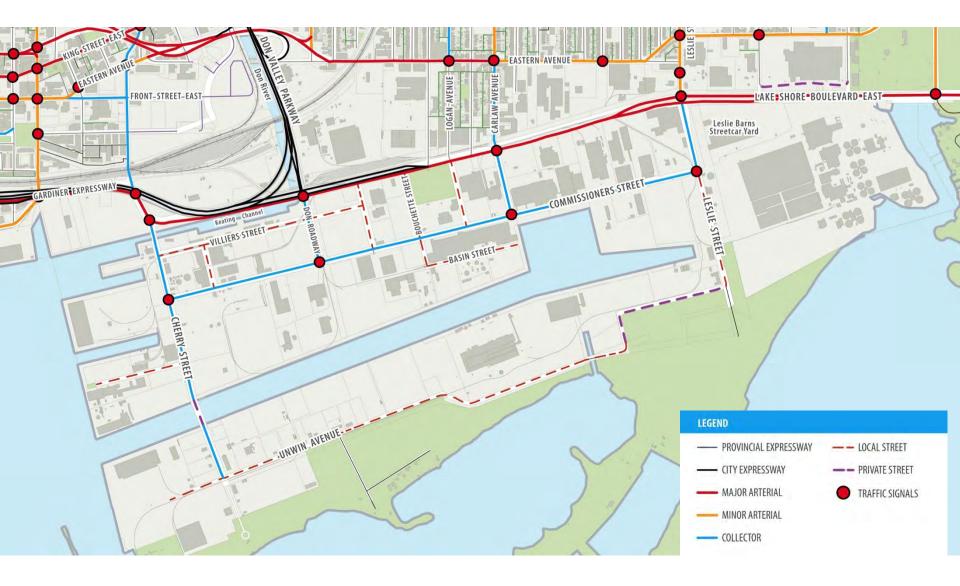

## **Municipal Class EA Process**

Port Lands + South of Eastern Master Plan

29/11/2013 46

### **Existing Conditions - Streets**

## **Existing Conditions - Transit**

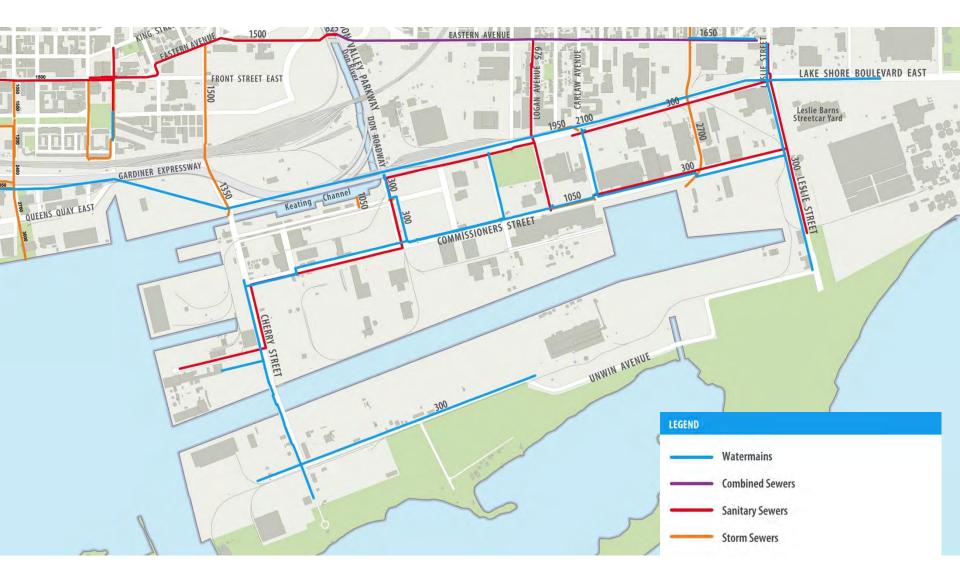

29/11/2013 48

## Existing Conditions – Pedestrians and Cycling

29/11/2013 49

## Existing Conditions – Municipal Servicing

29/11/2013 50

## **PLAI Transportation System**

### Transit

Major Roads

- Phasing of transit to coincide with redevelopment and establishing a critical mass
- Bus rapid transit in dedicated rightsof-way in initial phases with transition to LRT in the longer-term

# Problem and Opportunity Statement

### **Problems**

- Existing infrastructure is insufficient or is non-existent
- Major infrastructure like the Gardiner Expressway, Lake Shore Boulevard and rail corridors are impediments for better connections
- Street networks are limited
- The areas lack defined streetscapes and pedestrian amenity
- There is no higher-order transit service and introducing higher order transit on Commissioners Street requires resolving the hydro transmission towers located within the right-of-way east of the Don Roadway
- Existing connections across the Ship Channel are insufficient or are in disrepair
- New streets and servicing requires resolving soil contamination issues and the high water table
- The long-term revitalization of the lands necessitates developing strategies to ensure compatibility between existing industrial traffic and revitalized city environments

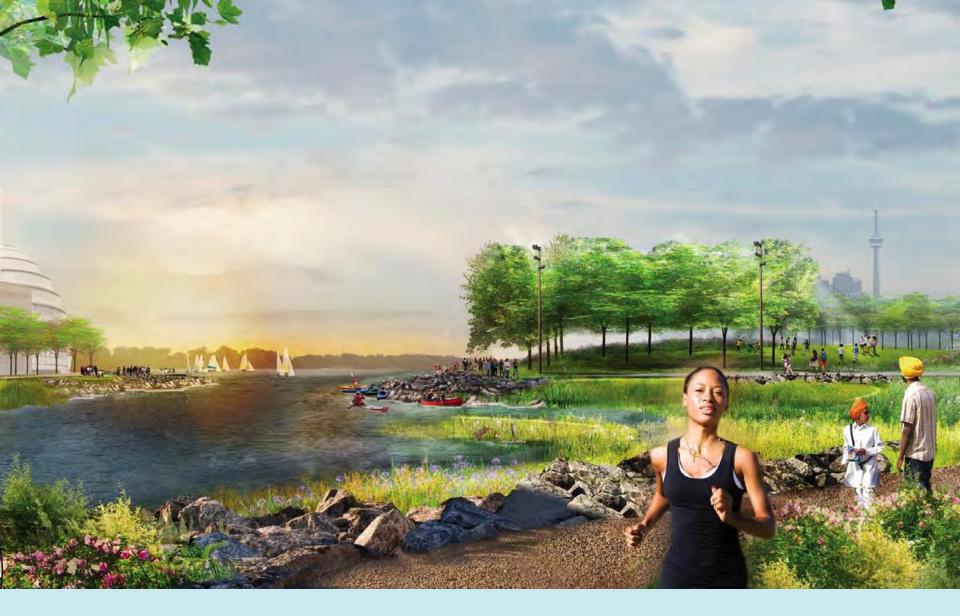

# Problem and Opportunity Statement

### **Opportunities**

- Located within close proximity to the city's downtown
- Opportunities to improve existing infrastructure comprehensively:
  - Introducing and extending higher order transit routes
  - Improving existing streets and establishing new streets
  - Providing complete streets
  - Capitalizing on the Ship Channel and Turning Basin for water-based transportation opportunities
  - Managing transportation impacts of growth on established, stable residential neighbourhoods
  - Providing innovative, state-of-the-art stormwater facilities
  - Providing the needed capacity for other municipal servicing

Do you think these problems and opportunities reflect the issues to be addressed in Port Lands and South of Eastern area from a transportation and servicing perspective?

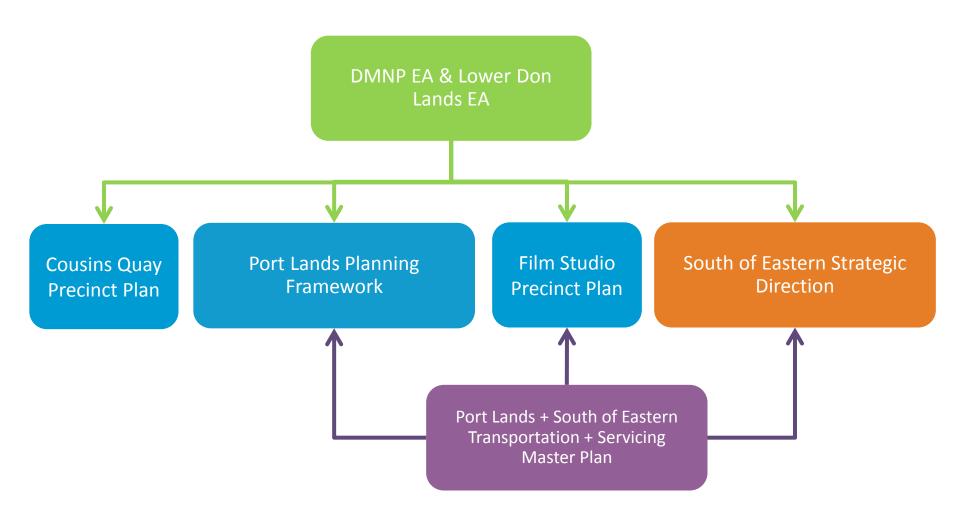

Are there other problems and opportunities that should be considered?
